REMEMBER follows the story of a 90-year-old who suffers from memory loss, and is living out his final years in a retirement home.

Zev Guttman played by Academy Award Winner **Christopher Plummer**, receives a mysterious package from his very close friend Max played by **Martin Landau** also an Academy Award Winner. The content contains a letter and a detailed plan.

Both Zev and Max were prisoners in Auschwitz, and the guard who was responsible for the deaths of both their families, fled Germany immediately after the war, and was living in the U.S. under an assumed identity.

Zev is instructed by Max to go on a journey to seek out the guard and bring justice once and for all to the man who'd destroyed both their lives.

This 2015 film is a gripping drama, with a twist.

**Free to Ralli Hall members & full-time students, otherwise £4.
